PROJECTS & EXPERIENCE

FIGMA CLONE | DRAWING WEB APP

I created a collaborative drawing app, and implemented import export functionality and real-time shape manipulation using socket-io and redis.

Made with :

- Angular, Socket-io, HTML Canvas, Fabric-js, Redis.

Chechout => <https://bit.ly/3Q6DISn>

INSTAGRAM CLONE | SOCIAL MEDIA WEB APP

I designed and built a social media web application, and implemented secure authentication, and real-time chat and messaging functionality.

Made with :

- NextJs, TypeScript, Redux Toolkit, NextAuthJs
- Socket-io, Sanity-io.

Chechout => <https://bit.ly/449z1I3>

CONTRIBUTIONS & EXPERIENCE

ECOMMERCE WEB APP

My friend and I worked together to build an ecommerce web app for a local client. Implemented all the functionality an eCommerce app should have. secure authentication, wishlist and add to cart functionality implemented.

And created an admin panel for admin using reactJs to control our ecommerce store.

Made with :

- ReactJs, Redux Toolkit,
- NodeJs & ExpressJs
- MongoDB
